**If not specified otherwise, all departures in Varenna are from Dock 2**

### Important considerations:

- We'd like to invite you to arrive to the meeting point 10 to 5 minutes in advance so that we can depart on time. If you are not familiar with the surroundings, this will give you time to be sure that you have found the correct pick-up place;
- If you are not staying in the town of departure, it is highly advised to arrive to the town well in advance;
- If you need to take a ferry, train or bus, check the arrival time in the town considering the time necessary to reach the meeting point and allowing plenty of extra time for any public transportation delays;
- If you will be arriving by car, make sure to arrive well in advance (in Summer at least 1h) to have enough time to find a parking place - in high season and on Sundays finding a parking can be especially difficult;
- If after the service you need to take a ferry/train/bus, check the time schedule beforehand;
